

## **Skills Check: Converting Time into Years**

What do you do if the time isn't given in years?

If the time is given in months, divide the months by 12.

10 months =

26 months =

If the time is given in weeks, divide by 52.

24 weeks =

48 weeks =

If the time is given in days, divide by 365

200 days =

500 days =

Note: Keep Lots of Decimal Places (at least 4!)
